

CLASS 8
(COMPUTER APPLICATIONS)
WINTER VACATION HOMEWORK

Please complete the following assignments during your holiday break. Make sure to send all your work to your teacher's email: roushan143rk@gmail.com.

Assignment Instructions:

1. Latest Computer/Mobile/Laptop Configurations

- Research and write a brief overview of the latest configurations for at least one computer, one mobile phone, and one laptop. Include details like:
 - Processor type and speed
 - RAM size
 - Storage capacity
 - Graphics card
 - Operating system
- Format your findings in MS Word. (1-2 pages)

2. PowerPoint Presentation

- Create a PowerPoint presentation comparing all electronic devices you have at home (e.g., laptop, tv, smartphone, desktop computer, fridge etc).
- Compare these devices with the latest model configurations available in the market.
- Your presentation should have at least 12 slides, including:
 - Title slide
 - Introduction slide
 - Individual slides for each device (including features and comparison)
 - Conclusion slide
- Use images and charts to enhance your presentation.

3. Create a Gmail Account

- Create a new Gmail account using the format: [your school number][your school name]@[gmail.com].
- For example: 123.sainikschoolambikapur@gmail.com (replace 123 with your actual details).
- Write down the steps you took to create this email account in MS Word. Include screenshots if possible. (1 page)

Submission Guidelines:

- Submit your MS Word documents and PowerPoint presentation to the email provided.
- Ensure that all your work is neatly organized and free of spelling or grammatical errors.
